## Foundations of Collaboration Skill Check

# The Four Network Leadership Principles

**1** Focus on mission before organization

**3** Promote others, not yourself

**2** Manage through trust, not control

**4** Build constellations, not stars

*Which of these is easy for you?*

*Which is harder, or is creating an obstacle for your partnership?*

A group of hikers is walking on a dirt trail through a dense forest of tall redwood trees. In the foreground, a woman in an orange long-sleeved shirt, green pants, a straw hat, and sunglasses is using two trekking poles. Behind her, a man in a light blue shirt and dark shorts is walking. To the right, a woman in a light blue button-down shirt and jeans is walking, and further back, another person with a large backpack is visible. The forest floor is covered with ferns and other greenery. The scene is brightly lit with sunlight filtering through the trees.
