

Managing by Network 2027

Managing by Network is an applied training program designed for people working in partnership, community collaboration, public engagement, and Tribal consultation.

This live, virtual course takes place over six months, combining instruction, discussion and interaction to promote peer learning, networking, and application on the job.

Learn how to:

- ✓ Build consensus and promote trust
- ✓ Facilitate internal and external meetings
- ✓ Apply persuasion and negotiation strategies
- ✓ Recognize conflict and respond effectively
- ✓ Evaluate risk and demonstrate accountability
- ✓ Assess partnership performance and impacts
- ✓ Leverage resources to build collaborative capacity
- ✓ Expand your networks to support partnerships
